INDEX TO VOLUME 2

INDEX OF AUTHORS

A

ADRIAN, E. D., Feldberg, W., and Kilby, B. A.: Cholinesterase inhibition by fluorophosphonates, 56

ASPLIN, F. D., and Boyland, E.: Pyrimidine sulphonamides in chicks, 79

B

BAKER, J. B. E.: Calcium and potassium and the toxicity of ouabain, 259

BERGER, F. M.: Mode of action of myanasin, 241

BEVAN, H. G. L., and Luxton, R. W.: Sulphadimethoxypyrimidine in man, 163

BLASCHKO, H., Chou, T. C., and Wajda, Isabelle: Atropine-like esters and esterases, 108

BLASCHKO, H., Chou, T. C., and Wajda, Isabelle: Inhibition of esterases by paludrine, 116

BOX, G. E. P., and Cullumbine, H.: Sub-lethal doses of phosgene, 38

BOX, G. E. P., and Cullumbine, H.: Survival time and dosage, 27

BOYLAND, E., and Asplin, F. D.: Pyrimidine sulphonamides in chicks, 79

BÜLBRING, Edith, and Chou, T. C.: Antagonists to tubocurarine, 8

BURGESS, F., Trenwith, V. S., and Cameron, G. R.: 2:3-Dimercaptopropanol and impaired renal or hepatic function, 59

BUTLER, Ruth, Davey, D. G., and Spinks, A.: Toxicity of paludrine, 181

C

CAMERON, G. R., Burgess, F., and Trenwith, V. S.: 2:3-Dimercaptopropanol and impaired renal or hepatic function, 59

CHOU, T. C.: Estimation of curare-like activity, 1

CHOU, T. C., and Bülbring, Edith: Antagonists to tubocurarine, 8

CHOU, T. C., and de Elío, F. J.: Effect of bis-triethylammonium salts on ganglionic transmission, 268

CHOU, T. C., Wajda, Isabelle, and Blaschko, H.: Atropine-like esters and esterases, 108

CHOU, T. C., Wajda, Isabelle, and Blaschko, H.: Inhibition of esterases by paludrine, 116

CULLUMBINE, H.: Assessment of therapies for leucopenia, 169

CULLUMBINE, H., and Box, G. E. P.: Sub-lethal doses of phosgene, 38

CULLUMBINE, H., and Box, G. E. P.: Survival time and dosage, 27

D

DAVEY, D. G., Spinks, A., and Butler, Ruth: Toxicity of paludrine, 181

DICKINSON, Löis: Streptomycin in experimental tuberculosis, 23

DOWNMAN, C. B. B.: Actions of β-hydroxy-αβ-diphenylethylamine, 207

E

ELIÕ, F. J. de: Acetylcholine on the rabbit auricle, 131

ELIÕ, F. J. de, and Chou, T. C.: Effect of bis-triethylammonium salts on ganglionic transmission, 268

F

FELDBERG, W., Kilby, B. A., and Adrian, E. D.: Cholinesterase inhibition by fluorophosphonates, 56

FOSS, G. L., and Gaddum, J. H.: Inhalation of hexoestrol, 143

G

GADDUM, J. H., and Foss, G. L.: Inhalation of hexoestrol, 143

GAGE, J. C., Martin, A. R., Rose, F. L., Spinks, A., and Tuey, G. A. P.: Sulphadimethoxypyrimidine, 149

H

HAWKING, Frank, and Tonkin, Isabel M.: Technique of testing drugs on *P. gallinaceum*, 221

HAWKINS, R. D., and Mendel, B.: Inhibition of pseudo-cholinesterase by di*iso*propyl fluorophosphonate, 173

HOLTON, Pamela: Estimation of anticestode drugs, 100

J

JONES, W. R.: Amoebicides in rats, 217

K

KILBY, B. A., Adrian, E. D., and Feldberg, W.: Cholinesterase inhibition by fluorosphosphonates, 56

KILBY, B. A., and Kilby, M.: Toxicity of alkyl fluorosphonates, 234

L

LUXTON, R. W., and Bevan, H. G. L.: Sulphadimethoxypyrimidine in man, 163

M

MARTIN, A. R., Rose, F. L., Spinks, A., Tuey, G. A. P., and Gage, J. C.: Sulphadimethoxypyrimidine, 149

MENDEL, B., and Hawkins, R. D.: Inhibition of pseudo-cholinesterase by di*iso*-propyl fluorophosphonate, 173

R

ROSE, F. L., and Spinks, A.: Absorption of sulphaguanidine derivatives, 65

ROSE, F. L., Spinks, A., Tuey, G. A. P., Gage, J. C., and Martin, A. R.: Sulphadimethoxypyrimidine, 149

S

SCHILD, H. O.: Measurement of drug antagonism, 189

SCHILD, H. O.: Use of drug antagonists for classification of drugs, 251

SPINKS, A.: Persistence of sulphadimethoxypyrimidine analogues, 271

SPINKS, A., and Rose, F. L.: Absorption of sulphaguanidine derivatives, 65

SPINKS, A., Tuey, G. A. P., Gage, J. C., Martin, A. R., and Rose, F. L.: Sulphadimethoxypyrimidine, 149

SPINKS, A., Butler, Ruth, and Davey, D. G.: Toxicity of paludrine, 181

T

THORP, R. H.: Respiratory stimulant drugs, 93

TONKIN, Isabel M., and Hawking, Frank: Technique of testing drugs on *P. gallinaceum*, 221

TRENWITH, V. S., Cameron, G. R., and Burgess, F.: 2:3-Dimercaptopropanol and impaired renal or hepatic function, 59

TUEY, G. A. P., Gage, J. C., Martin, A. R., Rose, F. L., and Spinks, A.: Sulphadimethoxypyrimidine, 149

W

WAJDA, Isabelle, Blaschko, H., and Chou, T. C.: Atropine-like esters and esterases, 108

WAJDA, Isabelle, Blaschko, H., and Chou, T. C.: Inhibition of esterases by paludrine, 116

WEST, G. B.: Oxidation of adrenaline, 121

SUBJECT INDEX

A

pA, a new scale for measurement of drug antagonisms, 189

Absorption of,
  sulphadimethoxypyrimidine in man, 163
  sulphaguanidine derivatives in mice, 65

Acetylcholine, effect on refractory period of rabbit auricle, 131

Adrenaline,
effect on refractory period of rabbit auricle, 131
oxidation of, in alkaline solution, 121
Alkyl fluorophosphonates,
inhibition of cholinesterases by, 56, 173
toxicity of in man and animals, 234
2-*p*-Aminobenzenesulphonamido-4: 6-dimethoxypyrimidine, *see* Sulphadimethoxypyrimidine
Amoebicides, therapeutic action of, in rats, 217
Analeptics, *see* Respiratory stimulants
Antergan, as antagonist of histamine and methylhistamine, 251
Anticestode drugs, biological estimation of, 100
Antimalarial drugs, technique of testing on *P. gallinaceum*, 221
Atrolactylcholine, affinity of, for esterases, 108
Atropine, as antagonist of,
acetylcholine and histamine, 189
histamine and methylhistamine, 251
Atropine, as antidote to di*iso*propyl fluorophosphonate, 238
Atropine-like esters, affinity of, for esterases, 108

B

BAL, *see* 2 : 3-Dimercaptopropanol
Benadryl, as antagonist of,
acetylcholine and histamine, 189
substance released from muscle by curare, 251
Benzilylcholine, affinity of, for esterases, 108
Bis-triethylammonium salts, blocking effect on ganglionic transmission, 268
Blood-clotting, effect of pyrimidine sulphonamides on, in chicks, 79

C

Calcium ions, effect of, on toxicity of ouabain, 259
Carbaminoylcholine, effect on refractory period of rabbit auricle, 131
Cholinesterases,
affinity of atropine-like esters for, 108
inhibition of, by
alkyl fluorophosphonates, 56, 173
paludrine, 116
prostigmine homologues, 19
Cocaine, affinity of, for esterases, 108
Curare-like activity,
antagonism of, by prostigmine homologues, 8
estimation of, 1

D

Di*iso*propyl fluorophosphonate
inhibition of pseudo-cholinesterase by, 56, 173
toxicity of, in man and animals, 234
2 : 3-Dimercaptopropanol, possible toxic effects in conditions of impaired renal and hepatic function, 59

Drug antagonism,
new scale for the measurement of, 189
use for identification and classification of drugs, 251

E

Eserine, as antagonist to tubocurarine, 8
Esterases,
affinity of atropine-like esters for, 108
inhibition of, by paludrine, 116

F

Fluorophosphonates, *see* Alkyl fluorophosphonates *and* Di*iso*propyl fluorophosphonate

H

Hexoestrol, inhalation of, 143
β-Hydroxy-αβ-diphenylethylamine, some actions of, 207

L

Lachesine, affinity of, for esterases, 108
Leptazol, as a respiratory stimulant, 93
Leucopenia, assessment of suggested therapies for, 169

M

Methylhistamine, behaviour towards antagonists of histamine, 254
Miotine, as antagonist of tubocurarine, 8
Mustard gas, survival time and dosage, 27
Myanesin, mode of action of, 241

N

Neoantergan, as antagonist of acetylcholine and histamine, 189
Nicotine, effect on refractory period of rabbit auricle, 131

O

Ouabain, effect of calcium and potassium ions on toxicity of, 259

P

Paludrine,
inhibition of esterases by, 116
toxicity of, in laboratory animals, 181
Pethidine, as antagonist of
acetylcholine and histamine, 189
histamine and methylhistamine, 251
P. gallinaceum, use in testing antimalarial drugs, 221
Phosgene,
effect of exposure to sub-lethal doses, 38
survival time and dosage, 27

Phrenic-nerve diaphragm preparation of rat, estimation of curare-like activity on, 1
Picrotoxin, as respiratory stimulant, 93
Potassium ions, effect of, on toxicity of ouabain, 259
Prostigmine homologues,
  as antagonists of tubocurarine, 8
  inhibition of cholinesterases by, 19
Pseudo-cholinesterase, selective inhibition by di*iso*propyl fluorophosphonate, 173

R

Respiratory stimulants, comparison of, 93

S

Stereoisomeric hydroxy-diphenylethylamines, comparison of, 213
Streptomycin, effect in experimental tuberculosis, 23
Strychnine, myanesin antagonism of, 244
Sulphadimethoxypyrimidine,
  absorption and excretion in man, 163
  experimental evaluation, 149
  persistence in blood stream of analogues of, 271
Sulphaguanidine derivatives, absorption in mice, 65
Sulphonamide, effects of pyrimidine derivatives in chicks, 79
Survival time and dosage of toxic agents, 27

T

Testes in chicks, effect of pyrimidine sulphonamides on, 79
Toxicity of,
  alkyl fluorophosphonates, 234
  ouabain, 259
  paludrine, 181
Trasentin 6H, affinity of, for esterases, 108
Triazol, as respiratory stimulant, 93
Tropacocaine, affinity of, for esterases, 108
Tropylcholine, affinity of, for esterases, 108
Tuberculosis, streptomycin in experimental, 23
Tubocurarine,
  antagonists of, 8
  biological estimation of, 1

Printed in Great Britain by Fisher, Knight and Co., Ltd., The Gainsborough Press, St. Albans.
